SECTION 1 : HERO CONTENT

UNIVERSITY COLLABORATION | KNOWLEDGE PARTNERSHIPS

Together, Let's Build the Future of Education.

Industry-aligned programmes. Integrated academic delivery. Technology-enabled learning.

Aero Edutech partners with universities to develop and deliver career-oriented academic programmes that bring together institutional academic expertise, industry knowledge and execution capabilities.

From programme development and student outreach to faculty coordination, learning technology and industry engagement, we help universities turn new academic opportunities into structured, scalable programmes.

SECTION 2 : THE BIG IDEA

Universities Have the Foundation. We Help Build What Comes Next.

The world of work is evolving. Students need more than academic knowledge they need practical exposure, relevant skills and preparation for emerging career opportunities.

Aero Edutech works alongside universities to bridge the gap between academic education and industry expectations.

Our knowledge partnership model brings programme development, student recruitment support, academic coordination, technology and industry engagement together under one collaborative framework.

Our goal: make industry-relevant education easier to develop, deliver and scale.

SECTION 3 : WHAT WE DO

One Integrated Partner. Six Core Capabilities.

01. Academic Programme Development

Collaborate with universities to introduce or strengthen diploma, undergraduate, integrated, postgraduate and short-term programmes based on institutional priorities and industry requirements.

02. Student Recruitment & Admissions Support

Build awareness and support student acquisition through outreach campaigns, digital marketing, counselling and admission coordination, in accordance with university policies.

03. Faculty & Academic Coordination

Coordinate qualified faculty, industry experts and mentors, support training and teaching methodologies, and help facilitate industry-relevant projects.

04. Learning Management System

Deploy Aero Edutech's proprietary Learning Management System (LMS) under a licence for the agreed programmes, supporting structured digital learning and academic engagement.

05. Industry Exposure & Career Development

Facilitate industry interactions, visits, internships, on-the-job training and placement-related opportunities, subject to programme arrangements and partner availability.

06. Programme Operations & Quality Support

Coordinate programme implementation, student engagement, academic delivery support and quality processes in alignment with the university's academic governance and applicable regulations.

SECTION 4 : PROGRAMME PORTFOLIO

Academic Programmes for Emerging Industries.

We work with universities to identify and develop programmes across relevant sectors, with curriculum, eligibility, duration and delivery arrangements finalised jointly.

Aviation, Hospitality & Tourism

- Aviation Management
- Aviation, Hospitality & Tourism Management
- Aviation, Hospitality & Travel Management

Business & Global Management

- Global Business Management
- Integrated Management Programmes
- Business and Management Specialisations

Entrepreneurship & Future Skills

- Entrepreneurship Development
- Communication Skill Development
- Information Technology
- Industry-oriented skill development programmes

Programme development is guided by university requirements, market relevance, academic approvals and applicable regulatory frameworks.

SECTION 5 : HOW THE PARTNERSHIP WORKS

Clear Responsibilities. Collaborative Execution.

The University

- Maintains academic governance and institutional oversight.
- Approves curriculum and academic frameworks through its designated processes.
- Manages admissions, enrolment and examinations in accordance with university rules.
- Provides agreed campus infrastructure and academic facilities.
- Ensures compliance with applicable academic and statutory requirements.

Aero Edutech

- Supports programme planning and development.
- Coordinates faculty, mentors and industry experts as agreed.
- Supports student outreach and admission-related activities.
- Deploys its proprietary LMS under the agreed licence.
- Coordinates academic delivery support and programme operations.
- Facilitates industry engagement and career-readiness initiatives.

A Collaborative Operating Framework

A joint coordination mechanism can be established to oversee programme implementation, review progress and resolve operational matters.

The exact responsibilities of each party are defined in the individual partnership agreement.

SECTION 6 : TECHNOLOGY-ENABLED LEARNING

Our Technology. Your Academic Ecosystem.

Aero Edutech deploys its proprietary Learning Management System to support the programmes covered under the partnership.

The LMS provides a structured digital environment for learning resources, course content and academic engagement, complementing the university's on-campus learning experience.

The platform remains the intellectual property of Aero Edutech and is made available to the university through an agreed licence for the relevant programmes.

Technology that supports learning without compromising institutional academic governance.

SECTION 7 : FROM CONCEPT TO CAMPUS

A Structured Path to Launch.

01 : Discover
Understand the university's vision, student segments, academic priorities and programme opportunities.

02 : Design
Define the programme concept, curriculum coordination, delivery model, resources and commercial framework.

03 : Formalise
Agree on responsibilities, academic approvals, fee arrangements, technology licensing and operating procedures.

04 : Prepare & Launch
Coordinate student outreach, faculty, LMS deployment, campus readiness and programme implementation.

05 : Review & Expand
Monitor delivery, review outcomes and explore opportunities to improve or expand the partnership.

SECTION 8 : A TRANSPARENT PARTNERSHIP MODEL

Designed Around Mutual Value.

Every university has its own academic structure, operational requirements and strategic priorities.

Aero Edutech develops partnership arrangements around the scope of the programme, responsibilities of each party, student-fee structure, delivery requirements and mutually agreed commercial terms.

Our focus is on clear accountability, transparent financial processes, coordinated execution and long-term collaboration.

SECTION 9 : POWERED BY PITCHVILLA

Strategy Meets Execution.

Aero Edutech is powered by Pitchvilla, bringing a business-oriented approach to programme development, technology adoption, growth strategy and operational execution.

Together, we aim to help universities explore new academic opportunities and deliver relevant learning experiences through structured industry collaboration.

SECTION 10 : CALL TO ACTION

Your Next Academic Initiative Starts Here.

Are you a university looking to introduce new programmes, strengthen industry engagement or build a more integrated approach to academic delivery?

Let's explore a partnership that aligns with your institution's vision.
