Founder's Note

Himanshu Dhadnekar | Founder, Pitchvilla

Entrepreneurship begins in the mind long before it becomes a business. It starts with the courage to think differently, the willingness to challenge limitations, and the discipline to keep moving when things don't go as planned. I believe the biggest difference between those who dream and those who build is not talent, money, or opportunity, it's mindset. The ability to embrace uncertainty, learn from failure, take ownership, and think beyond immediate obstacles defines a founder's journey. At Pitchvilla, we believe in shaping not just better entrepreneurs, but stronger minds capable of building the future. Build your mindset, and you build your possibilities.
